

Start

Step (1)

Search for opportunities on Trade Canary
* filter company overview (Green on the screen)
*RSI value under 40 ?
*Compression ratios Book/Sales/Growth (green) ?
Company financials ?(blue on the screen) ?
Financial history for 12 months ? (Yahoofinance.com)

TV Trade View

Step (2)

Check on blueline/red line graph (momentum chart)
*have the lines crossed over ?
*Is it at the bottom of the curve about to break out ?
Or pull back ?
(is it a higher high or a lower low ?)
Check forecast on Trade View as a double check ?

yahoo!finance

Step(3)

Compare the above on Yahoofinance.com
(look at a clean chart to compare)
5 year chart = weekly candles comparison
1 year chart also gives clear yearly indications
highs/lows ?
check Financial History for 12 months (analysis page)

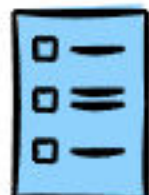

**E EARNINGS
W WHISPERS**

Step (4)

If (Earnings trade) check Earnings whispers
for the date ? a (tick or -)?

Step (5)

Recheck all of the above
DOUBLE CHECK
through points (1) to (5)

Step (6)
write the trade down on a blank A4
paper ready for processing (live)
(rinse and repeat)
